an INMED activity book

HEALTHY GAMES AND TEASERS

*By David Ripley, Arikara/Blackfoot and James N. Beiswenger
Did You Know? sections by Donna Rieske*

HEALTHY GAMES AND TEASERS is a book of fun and learning, prepared for the Indians into Medicine (INMED) Program. INMED is an education program which assists Indian students who are training for health careers. Support services include academic, financial and personal support for college and professional students. INMED's summer enrichment sessions are designed for students at any level from junior high through professional school. This comprehensive approach separates INMED from most other educational assistance programs. For more information contact:

QUENTIN N. BURDICK INDIAN HEALTH PROGRAMS

This publication is funded by Indian Health Service Grant # ISD000102-13
and Health Careers Opportunity Program Grant #2-D18-MB-01502-09 ✓

Match Reservation with State

The Indians into Medicine program is located in the north central part of the United States, and the program's students come from all over the country.

Indian health facilities in the states pictured below are among the most understaffed in the country. Can you match the correct states with the 22 reservations listed below?

MATCH THE RESERVATION WITH THE STATE NUMBERS SHOWN ABOVE

example:

↓					
BLACKFEET	4	CHEYENNE RIVER	_____	ROCKY BOYS	_____
TURTLE MOUNTAIN	_____	CROW	_____	ROSEBUD	_____
OMAHA	_____	WIND RIVER	_____	FORT PECK	_____
SANTEE	_____	FORT BELKNAP	_____	YANKTON	_____
SISSETON	_____	STANDING ROCK	_____	NORTHERN CHEYENNE	_____
FORT BERTHOLD	_____	FLATHEAD	_____	LOWER BRULE	_____
CROW CREEK	_____	PINE RIDGE	_____		
WINNEBAGO	_____	FORT TOTTEN	_____		

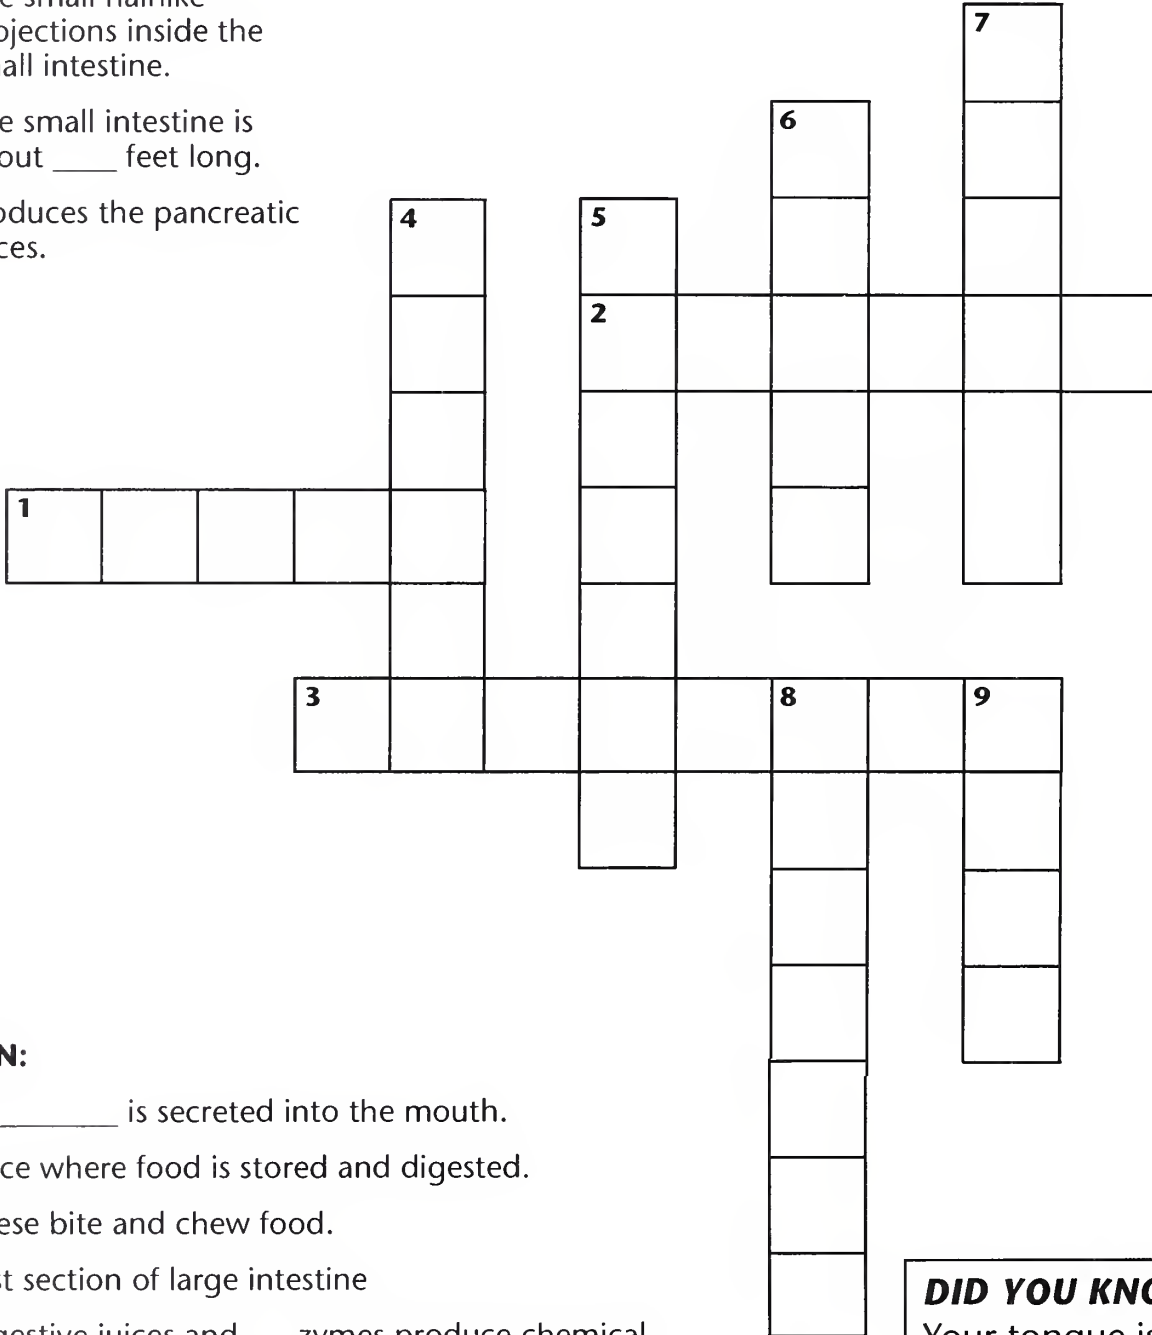

DID YOU KNOW? Walking one step involves up to 200 different muscles.

Digestive System

Crossword Puzzle

ACROSS:

1. The small hairlike projections inside the small intestine.
2. The small intestine is about ____ feet long.
3. Produces the pancreatic juices.

DOWN:

- _____ is secreted into the mouth.
- Place where food is stored and digested.
- These bite and chew food.
- Last section of large intestine
- Digestive juices and __ zymes produce chemical changes in the food you eat.
- What Indian people like to eat in a bowl, with fry bread.

DID YOU KNOW?

Your tongue is covered with thousands of taste buds.

HIDDEN MESSAGE:

Look at this page in a mirror to help Hawk find an important message for all young people.

DID YOU KNOW? You can't catch a cold from a change in temperature.

Know Your Health Careers

The Indians into Medicine program's students have been trained in the following career areas. Match the definitions with the appropriate career categories.

- | | |
|--------------------------------|---|
| ___ 1. medical doctor | a. RN trained to administer anesthesia |
| ___ 2. registered nurse | b. helps people to deal with their alcohol or drug dependency problems |

| <input type="checkbox"/> Stomach | <input type="checkbox"/> Large Intestine | |

Know Your Teeth

Crossword Puzzle

ACROSS:

1. Informal name for a human's first set of teeth, also a nutritious beverage in cartons.
3. Teeth found between molars and canines.
4. Upper and lower front teeth, also called "cutters."
5. Hardest material in the human body.

DOWN:

1. Teeth which are used for grinding food.
2. Sharp-pointed teeth, also called "dog teeth."

DID YOU KNOW? You taste with your tongue, but a butterfly tastes with its feet.

Our Largest Reservations

When health professionals enter the Indian Health Service, it is quite likely that they will provide primary care service to on-reservation Indian populations. On the list below, circle the ten reservations and trust lands you think have the largest Indian populations.

Blackfeet, MT
Cheyenne River, SD
Gila River, AZ
Fort Berthold, ND
Menominee, WI
Rosebud, SD
Wind River, WY
Eastern Cherokee, NC
Mescalero Apache, NM
Navajo, AZ-NM-UT
Pine Ridge, SD
Hopi, AZ
Zuni, NM
Red Lake, MN
Fort Apache, AZ
Crow, MT
San Carlos, AZ
Mississippi Choctaw, MS
Colville, WA
Papago, AZ

DID YOU KNOW? The brain is 80 percent water.

Your funny bone is
not really a bone,
but a nerve.

Coloring Page

INDIAN VALUE:

Respect — To honor oneself by showing consideration for all, and by feeling pride for being Indian and a member of a tribe.

Wisdom — The ability to understand what is true, right, and lasting.

DID YOU KNOW?

- Your heart is a pump which never rests.
- You yawn to get more oxygen into your body.

EYEdentify. . .

DIRECTIONS: Match the number of the eye parts on the diagram above with the names and definitions below. If you have trouble, try to find a diagram of an eye in a science book or encyclopedia.

- ___ **vitreous body** — transparent jelly behind the lens
- ___ **pupil** — dark central opening of the iris
- ___ **iris** — colored part around the pupil
- ___ **retina** — light sensitive membrane
- ___ **ciliary muscle** — controls the lens' ability to focus
- ___ **optic nerve** — carries impulses to the brain
- ___ **lens** — transparent body that focuses light rays
- ___ **aqueous humor** — occupies space between lens & cornea
- ___ **cornea** — transparent body that covers iris and pupil

DID YOU KNOW?

- There are 75 trillion cells in the human body.
- Hair grows $\frac{1}{2}$ inch every month.

EYE-maze-ing

DID YOU KNOW?

You are a little shorter at night than in the morning.

DID YOU KNOW?

- The femur (thigh bone) is the longest bone in your body.
- 206 bones make up the human skeleton.

Circulatory System

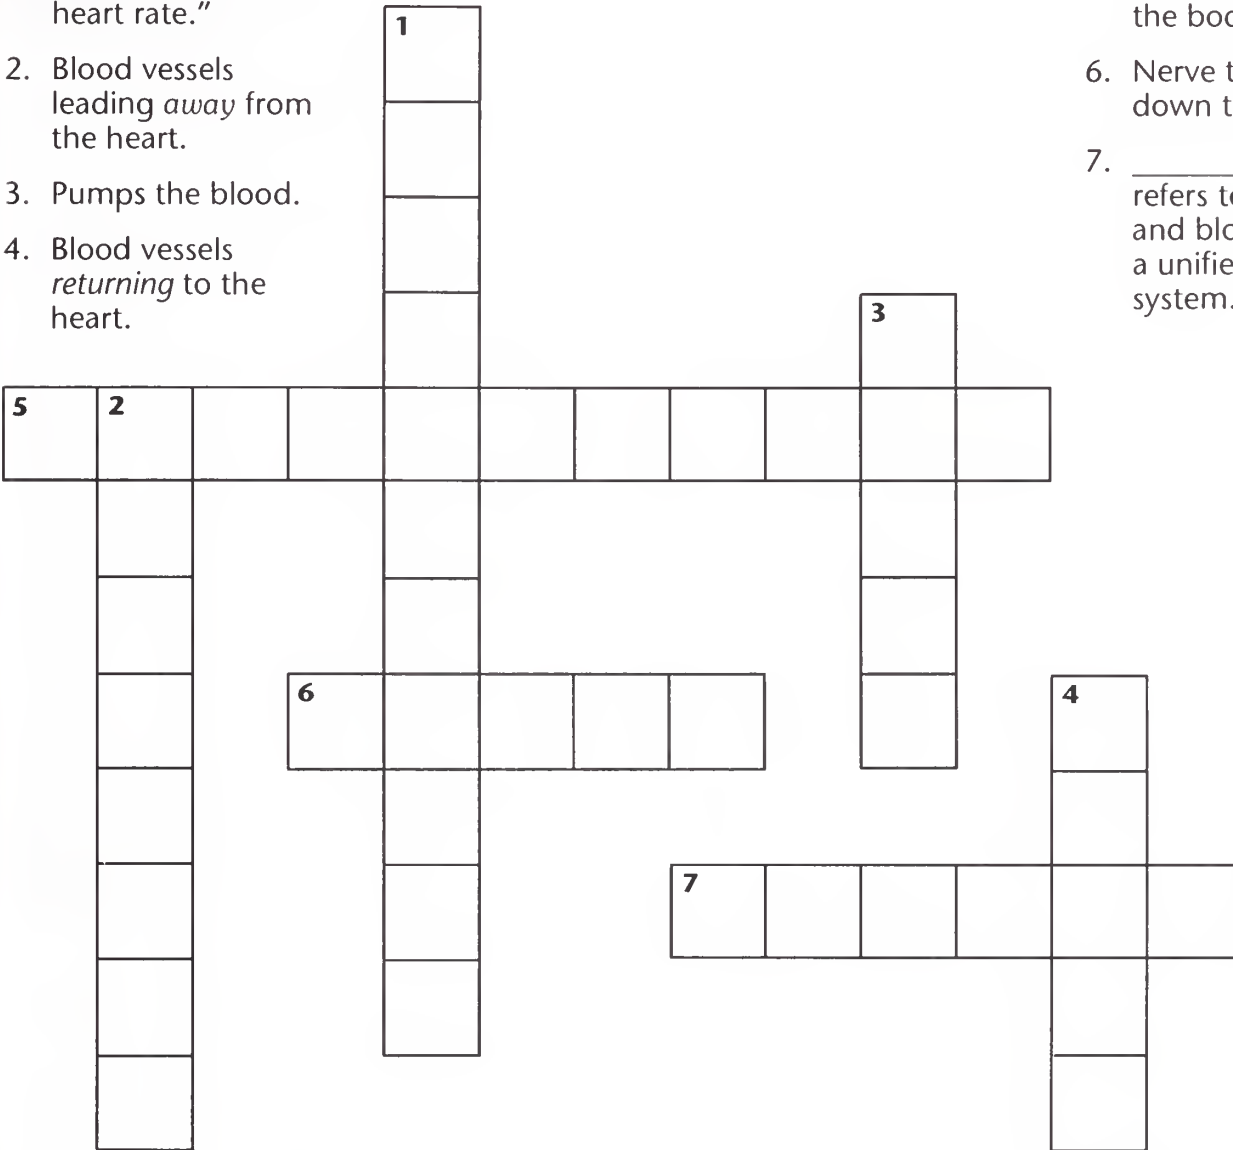

Crossword Puzzle

DOWN:

1. Exercise _____ (speeds up) your heart rate."
2. Blood vessels leading *away* from the heart.
3. Pumps the blood.
4. Blood vessels *returning* to the heart.

ACROSS:

5. Blood vessels delivering oxygen to the body cells.
6. Nerve that slows down the heart.
7. _____ vascular refers to the heart and blood vessels as a unified body system.

DID YOU KNOW?

- It takes less than one minute for your blood to take a trip all around your body.
- If you could stretch out your blood vessels, they would reach almost halfway around the world.
- Your heart does enough work every day to raise a train engine one meter off the ground.

Coloring Page

INDIAN VALUE:

Courage — the quality giving one the ability to do what is right in the face of danger, fear, selfishness and hard times.

DID YOU KNOW?

- Native Americans chewed the bark of the willow tree to relieve pain.
- Straight hair is round, wavy hair is oval, and curly hair is flat.

Now hEAR this

DIRECTIONS: Match the numbers of the ear parts on the diagram above with their names below. If you get stuck, be resourceful and find a diagram in a textbook or encyclopedia.

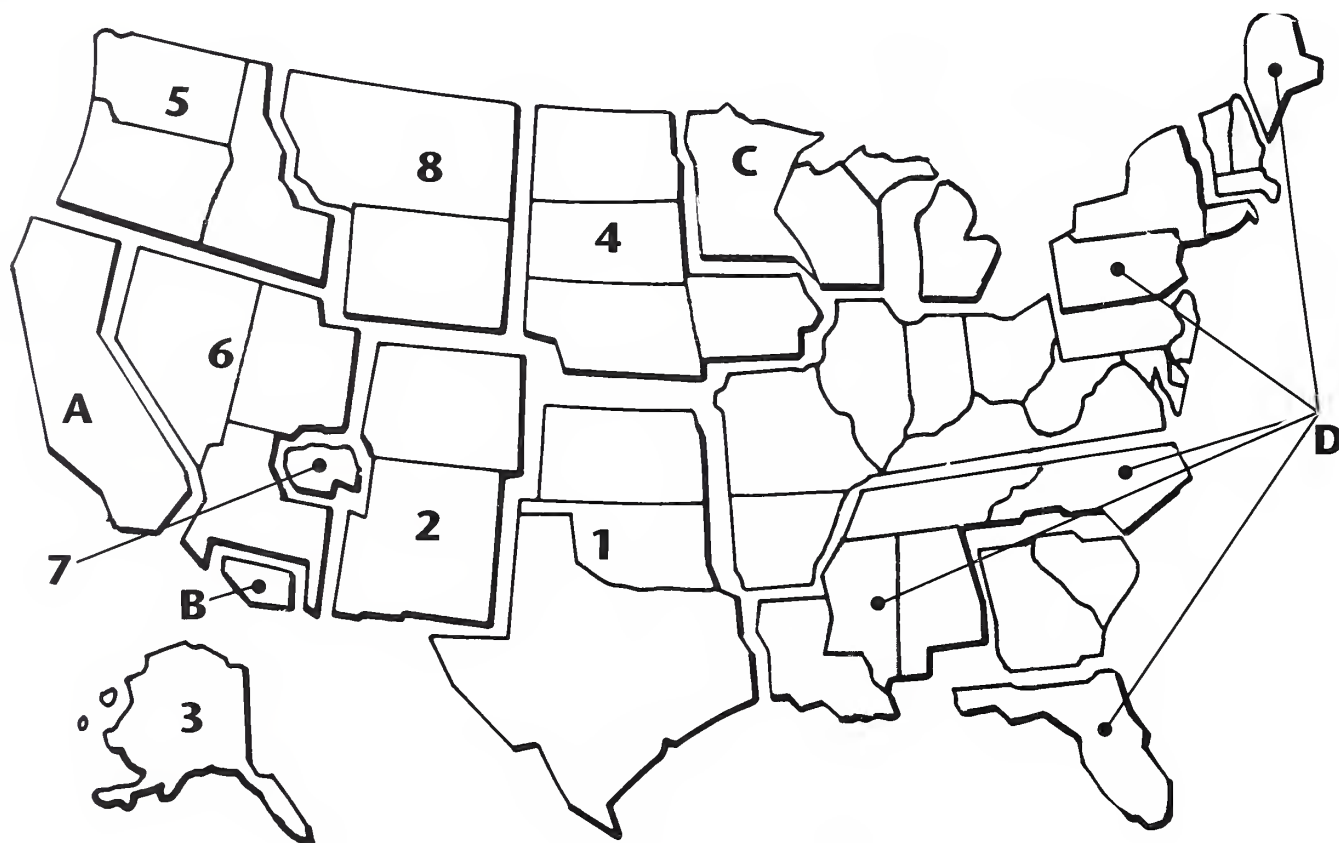

- ___ **anvil** — small inlus (middle) bone
- ___ **eustachian tube** — connects inner cavity with throat
- ___ **stirrup** — small stapes (inner) bone
- ___ **cochlea** — spiral part of inner ear
- ___ **eardrum** — receives and transmits sound waves
- ___ **outer ear** — flap of skin connected to opening in head
- ___ **semicircular canals** — provides balance
- ___ **hammer** — small malleus (outer) bone
- ___ **auditory nerve** — transmits signals to hearing centers in brain

DID YOU KNOW?

- The smallest bones in your body are inside your ear.
- White blood cells eat harmful germs.

The Geography of Indian Health Care

The Indian Health Service has divided the country into areas which are served through IHS area offices and program offices. Match the service areas of the country with the area and program offices below. (HINT: The area offices are numbered and the program offices are lettered.)

IHS Area Offices:

- ☐ Aberdeen
- ☐ Alaska
- ☐ Albuquerque
- ☐ Billings
- ☐ Navajo
- ☐ Oklahoma City
- ☐ Phoenix
- ☐ Portland

IHS Program Offices:

- ☐ Bemidji
- ☐ California
- ☐ Nashville
- ☐ Tucson

DID YOU KNOW?

White blood cells eat harmful germs.

MAZE: THE FIRST MAN AND HIS BUFFALO

DID YOU KNOW? A line of 1,000 germs could fit across the top of a pencil.
